PROFILE

UX designer offering over a year of agency experience across web, mobile, and VR game platforms and the front-end skills to build what I design. Pursuing a BSc in Computer Science at City St George's while seeking a part-time UX design position.

EXPERIENCE

Koffeecup Studio — Junior UX Designer

SEPTEMBER 2025 - SEPTEMBER 2026

- Redesigned the Hoomanz launch site with responsive navigation and links to 6 storefronts.
- Designed a web app for a Gamescom 2025 competition: 75% of ~120 entries and all 5 finalists came through it.
- Designed and built Koffeekickstart, a React onboarding platform integrated with Notion, HiBob and Google SSO for staff across 3 countries, to address 30% first-month turnover.
- Adapted Star City's menus, controls and mini-games from VR to mobile on Meta Horizon Worlds; target players voted it the most visually appealing against ~5 top games on the platform.
- Led UX and implemented UI with animations in-engine for Interior Designer on Meta Horizon Worlds, from wireflow to launch in ~2 months.

Koffeecup Studio — UX Design Intern

JUNE 2025 - AUGUST 2025

- Built a component library from scratch, standardising UX across projects.
- Designed wireframes and user flows for mobile and VR games alongside the UX Lead.
- Acted as the liaison between design and development, presenting concepts to team leads.
